FROM CHAIRMAN'S DESK.

It's glad to introduce our new school "Christ international school", from the umbrella of prince of peace educational trust from this academic year, which is located in Halehalli. Our intention is to give good and quality education for the elite class parents. Our school never compromises on quality of teaching and evaluation. Motherly care is offered to each child depending on their needs and talents. We try to inculcate the habits of achieving success through hard work. Leadership qualities through morality. Happiness through sharing and simple living. I do not entertain the young children to get encouraged through unlawful activities. On the whole, First place is given to a humble child in my school.

*"EDUCATION BREEDS CONFIDENCE, CONFIDENCE BREEDS HOPE,
HOPE BREEDS PEACE."*

CONFUSCIUS.

Message from Administrator's Desk

Mr. ABHISHEK ADMINISTRATOR- MANAGEMENT

“What we do makes a difference, and we have to decide what kind of difference we want to make.”

Dear parents, the aim of our Christ institution is to acknowledge and applaud the work of each and every member of our Christ institutions and all the parents. I appreciate the effort you have made to support the school to groom your child. I am proud to see the Christ institutions growing day by day and I must give special kudos to children & teachers and I must also celebrate heads of our school and college for the leadership quality in galvanising the events of the school in an effective manner. I reflect upon on the moments of the accomplishments in whatever our students participate. It is our duty and collaborative responsibility to groom the future individuals of the society. It gives me an immense pleasure to see the institutions in our organisation serving all the cadre of the society. We are also proud to have committed , dedicated faculty members .I assure you in coming future our Christ institutions will be providing much more better infrastructure along with quality learning environment that will help our students to focus on the goals of their life. Thanking you all once again for your co-operation and support also anticipating the same in future as well.

TRUSTEE'S MESSAGE

Ms SHILPA, Trustee-Management.

Education is a passion driven journey. The excellence in the teaching and learning experience is achieved by people who are internally motivated to give direction to the lives of several people. Education traditionally was meant to be the preparation of life, but it is also supposed to be the life in itself. It enriches, both the teacher and the student, taught with dignity, respect, equality, love, affection and ample skills to have an enriching life. The final aim of the education however, is the social reconstruction, reforming, keeping abreast with the times of the society. Our school believes in all round development of children, and inculcate in the minds of the young ones the values of human dignity, equality and a sense of brotherhood, which are the three icons of our democratic country.

Learning beyond the Classroom has been a success story so far for both students and teachers with synergic development of head and heart. We stand by and act on the principles of education upholding 'Truth, Determination, and Perseverance', which are categorized into Head, Heart, Skills and Feet, for better reflection of the holistic development of each student in our care:

Responsible, disciplined and dynamic learners (Head);

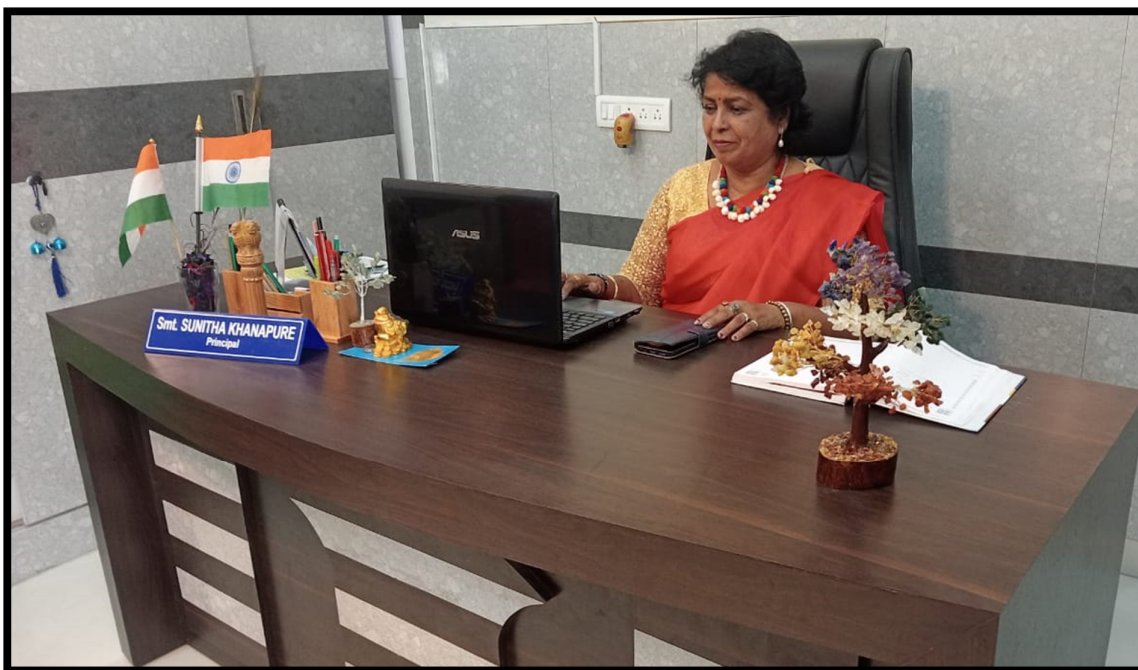

Compassionate individuals with the passion to serve (Heart);

Confident, adaptable and innovative individuals prepared for the challenges ahead (Skills);

Resilient Citizens with Integrity (Feet).

Any educational experience for the child gets consolidated with the strong bond of the nurturers, the parent and the school. For we firmly believe that teachers are trained parents, enriched with the experience of hundreds of students. Together we can form a relationship that is mutually beneficial and supportive for the child with never ending gratitude to the faculty of the Christ International School for making a difference in each and every child's life under the leadership of the Principal. We are as well indebted to the parents for their continuous cooperation and support in running the school effective, meaningful learning outcomes.

Principal's Desk

Ms. SUNITA KHANAPURE, PRINCIPAL-CBSE

Dear parents and students,

It is with great pleasure that I welcome you to our EUPHORIA_2024 – The SECOND edition of our school magazine. As a principal I' m highly impressed by the commitment of the management and all my faculty members for providing excellent all-round education for our students .as a team working together, we strongly believe the achievements of our students is also their commitment towards learning, hence we promote academic achievement amongst our students. The cultural and sporting success of our students are proudly celebrated together.

Our school helps in nurturing the talents of each and every student and striving to help the child to excel in all the activities of the school. We also encourage wholesome participation in all the learning activities and acre taken to ensure the wellbeing and happiness of each and every student in the school. So, Joyful learning to create life time happiness is our motto, Tam also grateful to all Parents, management, faculty members and students for their commitment, thereby bring excellence in every achievement.

Rules of life: *Never think I'm nothing, never think I'm everything, but always think I'm something and I can do everything.*
I hope you enjoy our school magazine.

JAI HIND

Our educational approach embraces the fact that every child comes to "CHRIST INTERNATIONAL SCHOOL" with his or her own hopes and aspirations.

To meet these needs, we believe it is important to encourage the pursuit of academic endeavour within a caring environment that promotes each student's ability and learning style.

We offer an early year's foundation stage programed for children aged 3-5 in the Pre KG classes. We are a truly international environment where the world comes to study and to develop a respect and affinity for the rich and varied cultures embodied by our families and staff. It is a pleasure to welcome you to find out more about our school, and invite you to visit and experience our school in person.

Vision

Transforming potentialities into realities.

Mission

- ☐ Develop young men & women with active and creative minds.
- ☐ Develop a sense of understanding and compassion for others.
- ☐ Develop individuals to be lifelong learners and problem solvers

NIHAL.T.M -III

1. This is Shiju, father of **Nihal.T.M 4th** std. I am very happy and satisfied with the progress of Nihal in the class and wanted to acknowledge the efforts being put in. First of all I wanted to Thank each one of you ie, principal, school, management, teachers and the supporting staffs. With all your guidance our son has developed into a confident and capable child. Thank you once again. Regards,

Shiju T.M.

2. As parents of our child Judah Jasper Lamech, studying in grade 9 of the prestigious, The Christ International School, Hallahalli, Bangalore, we are here to appreciate each of the teaching and non-teaching staff. This applause comes in after we have seen the tremendous change and positive behavior of our son in the last 11 Months.

There has been a direct day-to-day involvement of the Principal, Ms. Sunita Khanapure, in the development of our child. She truly cares about each student's well-being. The Principal has time and again got our son involved in very high responsibilities of the school beyond academics, bringing out the leadership qualities of our son.

A deep word of appreciation to our son's class teacher, She has made a huge impact and her sacrifices cannot go unnoticed, wherein we have seen the highly motivated children and especially with our son.

All the subject teachers are immensely, doing their best beyond the call of duty, since this is the first year of CBSE at CIS and each of these teachers are going all out to ensure the children do perform well and come out with flying excellent colours. After a near-death-of-quality-educational-experience due to Covid19, teachers at CIS has resurrected the love for studies and invoked the desire to excel. Apart from the class-room sessions, the extra-curricular as well as the co-curricular activities and events conducted outside the four walls of the class have made a big impact on our son. For example, the Demo Parliament Sessions, Science Exhibitions, Out-door Educational Picnic and the Annual Sport event, etc. all of which are outstanding labour of the Principal and all teachers and non-teaching staff of CIS.

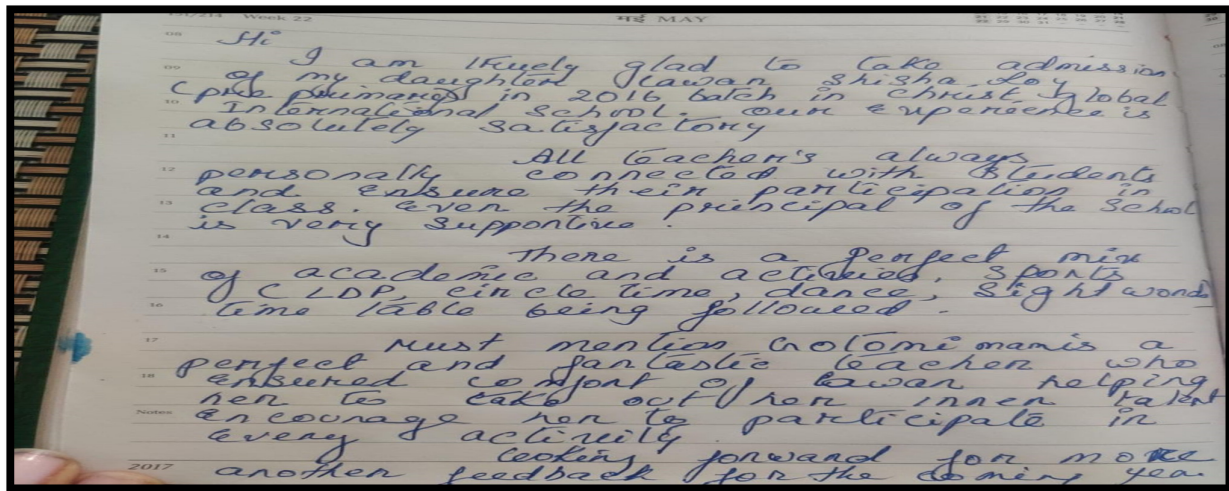

We have decided to have Judah complete his 10th grade at CIS and if God-willing his 11th & 12th grade classes too, under the current alma mater.

We as a family, our 1st daughter Lemuela Lamech (*Petroleum Engineer*), *Enverus Austin Texes*, her husband Paul Louis (*Software Engineer*), *SAP Labs* and our 2nd daughter, Hamuela Lamech (*1st yr Doctor In Pharmacy*), my wife and myself, would like to congratulate CIS on their 1st successful year and Best Wishes to the Management and all Staff of CIS.

STUDENT COUNCIL

“Change makers take risk, and are ready to die for excellence rather than to give excuses. Be the change “U” to like to see in the world”.

STUDENT COUNCIL REPORT

Judah Jasper Lamech, School Captain

The opportunity to assist with The Christ International School, as its maiden School Captain, is an immensely privileged chance for Miss. Ankita and myself Judah Jasper Lamech, the Girls School Captain and the Boys School Captain respectively. I would like to thank our Management, Principal and my Teachers for giving their continuous support and encouragement.

The co-education of having both boys and girls study together and preparing us to face the world in the years to come by the leadership of our school is commendable. As School captains for us to come together and organise and motivate students to participate in the various activities scheduled by the Management of the Christ International School is indeed an honour. Some of the responsibilities included for us School Captains are to assist teachers organising inter-House events and speak on behalf of students during the morning assemblies, at other school functions and many other special events.

Both Ankita and I feel proud to be at the helm of this great school. Ankita shows a lot of interest by joining the student council activities only because we want to get involved with our school and make an impact on others. My Leadership skills and willingness to lead committees and be a representative for being creative are added virtues and to think of new and exciting activities and fun elements for the student council. We both as school captains are committed to serving the students and making their learning experience at school better.

A brief explanation of the four School Houses are brought out below:

1 NAME OF THE HOUSE	THEME AND COLOUR OF THE HOUSE
BLUE HOUSE FAITH CAPTAIN:S.V.VIJAY	Blue House colour represents Faith. Green House colour represents Hope. The colour of hope is connected with the colour of springtime. The colour green has strong associations with nature and brings to mind lush grass, trees, and forests. Hope represents the faith that things will improve after a period of difficulty, like the renewal of flowers and plants after the winter season.
GREEN HOUSE HOPE CAPTAIN: Md. MUHASIB	Green House colour represents Hope. The colour of hope is connected with the colour of springtime. The colour green has strong associations with nature and brings to mind lush grass, trees, and forests. Hope represents the faith that things will improve after a period of difficulty, like the renewal of flowers and plants after the winter season
RED: COURAGE CAPTAIN: ADITHYA MISHRA	Courage is associated with the colour red because to survive our ancestors needed to hunt and that required perseverance and bravery. When blood flowed from the wounds of our prey it meant sustenance and survival. It instilled strength and courage
YELLOW HOUSE PEACE CAPTAIN: SRIDHAR & RENUKA	In ancient religions, yellow was a sacred colour. Peace is the path we take for bringing growth and prosperity to society. If we do not have peace and harmony, achieving political strength, economic stability and cultural growth will be impossible. When we feel peaceful within ourselves, we will naturally feel peaceful towards others

All our four House captains maintain a high level of commitment throughout the year to promote sport events, encourage and motivate teams as well as assist the PE Teacher and school staff in sports related matters.

The Vice captains encourage and motivate their House members. The four House captains also represent in student council as active members.

The House captains' roles and responsibilities and characteristics include positive leadership skills, good organisational skills, a supportive, caring and fair attitude, be responsible and a good role model, show a respectful conduct towards House members and the whole-School community. Lastly, we all as the Student Counsel will want to always inspire the children of our respective Houses. We will be an excellent role model in behaviour, attitude and dress well at all times. The School Management expects us Captains to work in tandem with school teachers in organising and hosting the daily school routines, which we proudly undertake. I as the school Captain, will ever remain indebted to this great school that shapes our minds as teachers are always willing to invest in us. As the Chinese proverb goes, "Teachers can open the door, but you must enter it yourself." We will remain proactive always. "The most important thing about leadership is your character and the values that guide your life"

COOKERY CLUB REPORT

BY **CAPTAIN: DAYANAND GOWDA**

GREETING EVERYONE.I AM DAYANAND FROM 9TH GRADE OF [CIS].I AM THE CAPTAIN OF COOKERY CLUB. SOUNDS WEIRD THAT A BOY LIKES COOKING.BUT I DON'T KNOW I HAVE AN ATTACHMENT WITH COOKING.

SO ON THE FIRST DAY OF OUR CLUB ACTIVITY WE DISCUSSED ABOUT TEAM SELECTION WE WERE SPLIT INTO THREE TEAMS.AND EACH TEAM HAD A HEAD. ON THE FIRST WEEK WE COOKED SOMETHING HEALTHY AS A GOOD START.[DIFFERENT TYPES OF VEGETABLE SALAD] WE KNOW THAT EVERY SINGLE ONE LOVES FOOD. AS THERE WAS AN ORIENTATION FOR KG AND PRE-KG STUDENTS.WE HAD TO COOK SOMETHING FOR THEM AND SELL IT.EACH TEAM HAD TO COOK THREE DISHES.

THE LEARNING OBJECTIVES OF THE COOKERY CLUB ARE AS FOLLOWS:

- 1: TO KNOW THE IMPOTANCE OF BALANCED DIET AND ALSO TO ENCOURAGE THE NUTRITIONAL VALUE AMONG MY FELLOW MATES
- 2: TO UNDERSTAND THE ECONOMIC VALUE OF FOOD INDUSTRIES.
- 3: COOKING WITHOUT FIRE TO RETAIN THE VITAMINS AND THE MINERALS OF THE FOOD INTACT.
- 4: TO LEARN TO COOK IN CORDINATION WITH OTHER CLASSMATES AND PRESENTATION SKILLS IN SERVING THE FOOD WITHOUT TASTING.
- 5: TO LEARN TO PROMOTE TEAM WORK AND BONDING.

I WOULD LIKE TO THANK EVERY PARTICIAPANT IN THE CLUB FOR COOPERATING WELL WITH US AND FOR THE PROGRAMS GLIDING SMOOTH

LITERARY CLUB REPORT

Let me begin with the words of *Johann Wolfgang:*

"The decline of literature indicates the decline of a nation".

English Literature Club is a place to inculcate among students of Christ International School, a flair for the English language and enhance their literary skills.

- We will induce reading habit in students.
- We will encourage students to become orators.
- We will display their intellectual, independent thinking skills in dramas.
- We will imbibe a sense of confidence during assembly speeches.
- We will provide a platform for debating events.

The few benefits of the English Literature club are:

- To improve communication skills.
- To teach you about yourself.
- To teach about the past.
- To cultivate wisdom and a worldview and to entertain.

Let me close with by saying "The greatest glory in living lies not in never falling, but in rising every time we fall".

SCIENCE CLUB REPORT

Science Club is the platform for the students to promote their scientific interest, realize their scientific skills and fulfill their quest in doing science activities.

Aims of Science Club:

*To acquire basic knowledge of Science.

*To develop a scientific way of learning.

*To develop awareness of scientific issues in personal, social environmental and technological context.

Objectives of Science Club:

Classically, science's main goal has been building knowledge and understanding, regardless of its potential applications — for example, investigating the chemical reactions that an organic compound undergoes in order to learn about its structure.

The following activities were held in the Science club:

1. Sowing seeds for Kitchen garden 2.Lava Lamp 3.Description on compound Microscope.

Also a Science exhibition was held under the Guidance of Sopra Steria by Ms Gayathri Mohan, where exhibited their models and presented their projects. Teachers incharge were Ms. Rajeshwari and all Science faculty.

Adding on, our students represented our school in the Inter school competition held at Capstone High School, Hoskote.

Teachers Incharge: Ms.Pavithra, Ms.Gowthami.

REPUBLIC DAY REPORT

On the auspicious morning of 26th January our Christ International school celebrated 74th republic day in the school premises. Principal, Management, Students, teachers and staff members filled with a feeling of patriotism and dedication during celebrations.

IMPORTANCE OF CELEBRATION IN SCHOOLS

*Celebrations are fun for kids, fun for parents,
And offer a welcome break,
From the stresses of the nuclear family.
The sheer quantities of People make life easier.*

We in Christ international School believe that, Festivals are special days to celebrate tradition, culture, and heritage with happiness, peace, and harmony. It is highly recommended to live the festive moments to the fullest as they play a significant role in our social life. All festivals are cultural in one way or another. There are many types of cultural festivals such as National, Religious and Seasonal. They all serve the purpose of bringing happiness to our lives, and strengthen our sense of community. Celebrations are also a part of learning activity for the Students.

National Festivals: They connect us as a people of a nation. National festivals connect citizens to important moments of a nation's history such as: the founding day of a nation, our independence day or in Europe VE day (Victory of Europe during WWII) is celebrated throughout the continent, with many nations having a public holiday. They solidify patriotic spirits in the society.

Religious Festivals: religious festivals are important for families. To keep this simple we can all agree that religious festivals help us to teach principles and ethics to our next generations. All different religious festivals bring the same message of love, tolerance and understanding. On these occasions we express our gratitude to God, for the special thing or event that originated on this particular festival.

Seasonal Festivals: Seasonal festivals reflect attitude of people towards nature. These festivals are important because they are related to food supply. Human beings should adore the nature and acknowledge its beneficence before partaking any of its gifts.

Let's Celebrate life, let's learn to spread the joy of happiness, A celebration is a special enjoyable feeling to cherish something pleasant, and to feel jubilation of celebrations in the school to make students journey in the school a memorable one.

The percentage of marks is not only the Mark of Achievement of success, but as well to imbibe and learn life skills to maintain emotional balance to become happy, healthy individual and the School is promoting a culture of nurturing the talents through celebrations. The intension of Celebration is to lead joyful moment's every day.

To conclude, universally all festivals are related to harmony, peace and happiness, which is what we strive to inculcate in each child at CIS.

Calligraphy

What could be more beautiful and appealing to the eyes than a combination of arts and decorations used to write a couple of words or deliver a certain message?

The branch of art which deals with written words in a certain beautiful manner is called Calligraphy. The word calligraphy is derived from the Greek word “kaligraphia”, which is a combination of two words that mean “fair and beautiful” and “to write”.

Calligraphy was first attempted by The Sumerians, around 7,000 to 8,000 years back, who were one of the first people to have ever lived on this Earth. They were located in East Asia, which is now known as Modern Iraq. Their writing system was ultimately unique and consisted of syllabic system, logo phonetic and consonantal alphabetic.

This system was founded by The Dravidians who arose in the Harappa area at around 2500 BC. This area is now known as north-eastern Afghanistan. They had a very commercial civilization, full of trade transactions with many other regions, therefore they felt the need of inventing their own writing language as a method of communication. Their script of writing is so unique to the point that it can be differentiated even if it was in between a thousand other scripts.

In about 1600 BC, the Chinese culture came up with another form of pictographic writing system, which happened to be the last system which uses pictographic calligraphy in the early cultures and civilizations.

Later on, the styles of Arabic Calligraphy were further transformed, and instead of them being just a way of communication –writing verses of the Quran- they were turned into an [art](#), this art is much more appealing to the eye of the reader. Other than that, the new styles gave Arabic an extravagant and sophisticated look that is much more engaging.

Calligraphy is the art of forming beautiful symbols by hand and arranging them well. A Calligrapher creates attractive texts and lettering for wedding and event invitations, logo designs, maps, memorial documents, religious art, cut stone inscriptions, quotes, poems, testimonials, birth and death certificates, letters and stationery.

The difference between hand lettering and calligraphy is – Although both hand lettering and calligraphy are visual art forms related to letters, their main difference is the method used to create the letters. Hand lettering focuses on drawing and illustrating the letters. Calligraphy, on the other hand, is the art of beautiful writing.

Let's practice the **beauty and rhythm of calligraphy and enjoy writing.**

Importance of Soft skills for students:

Soft skills are indispensable and are vital skills that every individual must possess. Lack of these skills can limit the potential of a person. However, having soft skills improves one's ability to work with others and positively impacts one's career or even positively influences one's personal life by improving ways of interacting with others. As stated earlier, soft skills cannot be learned through training and are more challenging to develop. They are more about the character, relationships, and personality of a person.

Soft skills and personality development skills for students:

1. **Leadership:** Leaders are the ones who initiate actions, offer guidance at crucial times, inspire others, coordinate smoothly and possess a problem-solving approach. The importance of leadership skills is not limited to college life; it is a skill that shapes your overall personality. Therefore, you should make genuine efforts to learn leadership skills during your college years by participating in various competitions, organising inter-college events and so on.
2. **Interpersonal skills:** Did you know students with excellent interpersonal skills will become exceptional corporate resources of tomorrow? Interpersonal skills will help you understand the behaviour and coordinate with others. Students with strong interpersonal skills easily build relationships with others, interact empathetically, resolve conflicts effectively and enjoy their lives.

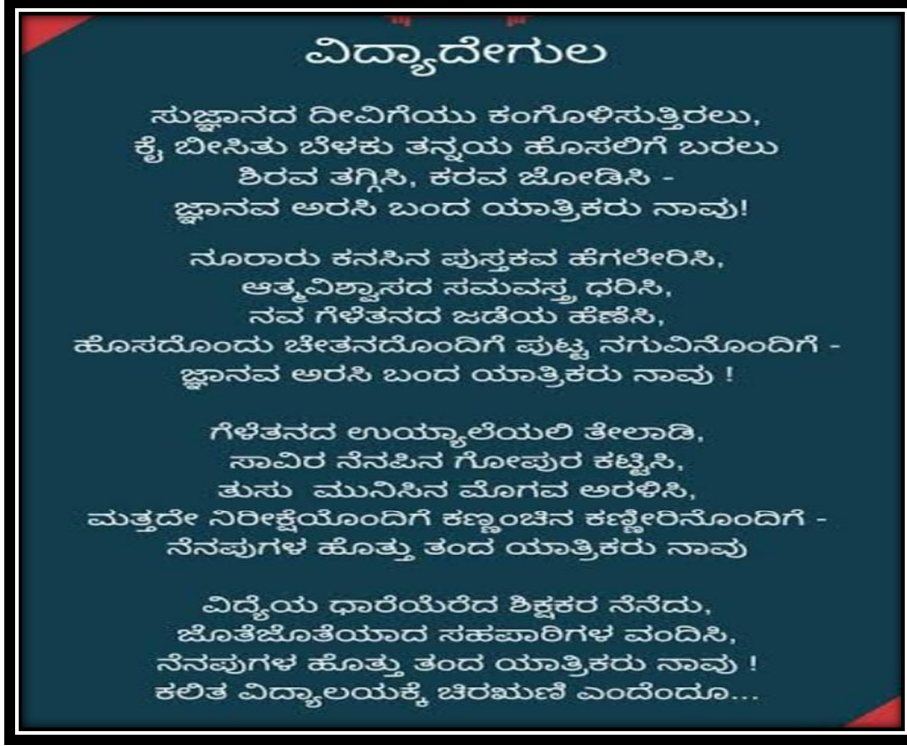

Pro-Tip: Kindly remember interpersonal skill is an umbrella term that encompasses skills like empathy, active listening, motivation, and patience, to name a few.

3. **Adaptability:** Adaptability is an essential soft skill that will make you flexible in your daily life. It shows your readiness to accept new things – be it a project, role or new environment. So, if you are planning to study abroad and are adaptable to changes, you can easily adjust to different learning and teaching patterns used in different universities.
4. **Communication skills:** Strong communication skills can pave the way to success in your academic and professional life. It is because well-developed verbal and written communication skills help you to express thoughts or ideas clearly in group discussions, speeches or presentations. Good communication skills not only make you confident but also allow you to understand the subjects and people better.
5. **Teamwork:** Teamwork enables information exchange and seamless communication between different groups, which ultimately helps in achieving pre-defined goals. Because working in teams or groups is an essential part of degree courses, developing this habit during the academic years is a sure-fire way to career success.
6. **Problem Solving:** Regardless of the course you are studying, problem-solving skills are always valued throughout student life. These skills determine your ability to think critically, identify potential problems and develop solutions for combating them. Moreover, being a problem solver implies that you are creative and competent in solving problems with out-of-the-box solutions. It will be an added advantage because creativity is one of the most in-demand soft skills besides adaptability and collaboration, as per *LinkedIn*.

7. **Time Management:** A better understanding of time management helps students to work while studying without facing any challenges. Students with good time management skills can handle multiple tasks and perform exceptionally well in all spheres of life.

Thank you.

Pythagoras

Pythagoras, born in 569 B.C.
A great mathematician, was he.
He lived in Samos,
That's in Greece
He did much more than study math.
He was a healer and a wrestler, can you feel his
wrath.
Pythagoras is the founder of the Pythagoreans,
They studied odd, even, prime, and square
numbers.
Studying those numbers helped them get,
The Pythagorean Theorem.
If you came to be a Pythagorean,
You had to remain silent for five years.
That erased Pythagoras's fears.
He died a good man,
I am truly his fan.

Unleashing Potential: The Importance of Extracurricular Activities in School

Extracurricular activities play a pivotal role in shaping a student's overall educational experience. While academic pursuits are undeniably important, these activities outside the traditional classroom setting offer a multitude of benefits that contribute to a well-rounded and enriched educational journey.

Holistic Development:

Participation in extracurricular activities fosters holistic development by nurturing various aspects of a student's personality. Whether it's sports, arts, or clubs, these activities provide opportunities to develop social, emotional, and physical skills that go beyond academic achievements.

Enhanced Social Skills:

Engaging in group activities cultivates teamwork, communication, and interpersonal skills. Students learn to collaborate with peers, resolve conflicts, and appreciate diverse perspectives, essential skills that are valuable both in their academic and future professional lives.

Time Management and Discipline:

Juggling academic responsibilities with extracurricular commitments teaches students the art of time management and discipline. Balancing homework, practices, and other activities instills a sense of responsibility and helps students prioritize their tasks effectively.

Discovering Passion and Purpose:

Extracurricular activities provide a platform for students to explore their interests and passions. Whether it's discovering a love for the arts, sciences, or community service, these activities help students identify their strengths and interests, guiding them towards potential career paths.

Stress Reduction and Well-being:

The pressures of academic life can be overwhelming, and extracurricular activities offer a much-needed outlet for stress relief. Engaging in activities that bring joy and fulfillment contributes to overall mental well-being, reducing the negative effects of academic stress.

Resume Building and College Applications:

Schools and colleges increasingly value a well-rounded student profile. Participation in extracurricular activities not only demonstrates a student's diverse interests but also showcases qualities such as leadership, dedication, and a willingness to go beyond academic requirements.

Building Confidence and Self-Esteem:

Success in extracurricular activities, whether it's winning a debate, scoring in a game, or presenting in front of an audience, boosts a student's confidence and self-esteem. These

positive experiences contribute to a strong sense of self and the belief that one can overcome challenges.

Extracurricular activities are not just an optional addendum to education but a crucial component in the holistic development of students. They provide a dynamic platform for learning, self-discovery, and personal growth. As schools continue to recognize the importance of a well-rounded education, fostering a culture that encourages and supports diverse extracurricular opportunities is key to preparing students for success in both their academic and future endeavours.

Discipline

Discipline refers to the practice of making people obey rules.

Furthermore, it also means following certain acceptable standards of behavior. Discipline is certainly an essential thing in everyone's life. A life without discipline is a life full of chaos and confusion. Most noteworthy, discipline makes a person into a better human being. Discipline is a trait of paramount importance.

Why is Discipline Important?

First of all, discipline helps an individual in becoming more focused. Furthermore, a person of discipline tends to have a much better focus on his work, activities or goals. Discipline, makes a person avoid distractions of various kinds. A feeling of sincerity and seriousness comes in due to discipline. Consequently, a high-quality focus is the result of discipline

IMPACT OF CINEMA IN LIFE

- Cinema connects different cultures and reflects the society through fiction or real-based stories. It keeps us aware of things happening around us in the community.
- Certain movies create false notions and stereotypes that defame certain sections of the community and people. It generates employment, encourages creativity, and boosts the economy of the country.

I love my school because it is one of the best schools in my city. It offers me a joyful atmosphere. The school is the place that prepares us for a good tomorrow.

It is beautifully surrounded by a belt of lush green trees. My classrooms are airy and spacious. The teachers love to all. They are very serious about all around developments of the students. Our headmaster is a very good man. He takes care of every student individually.

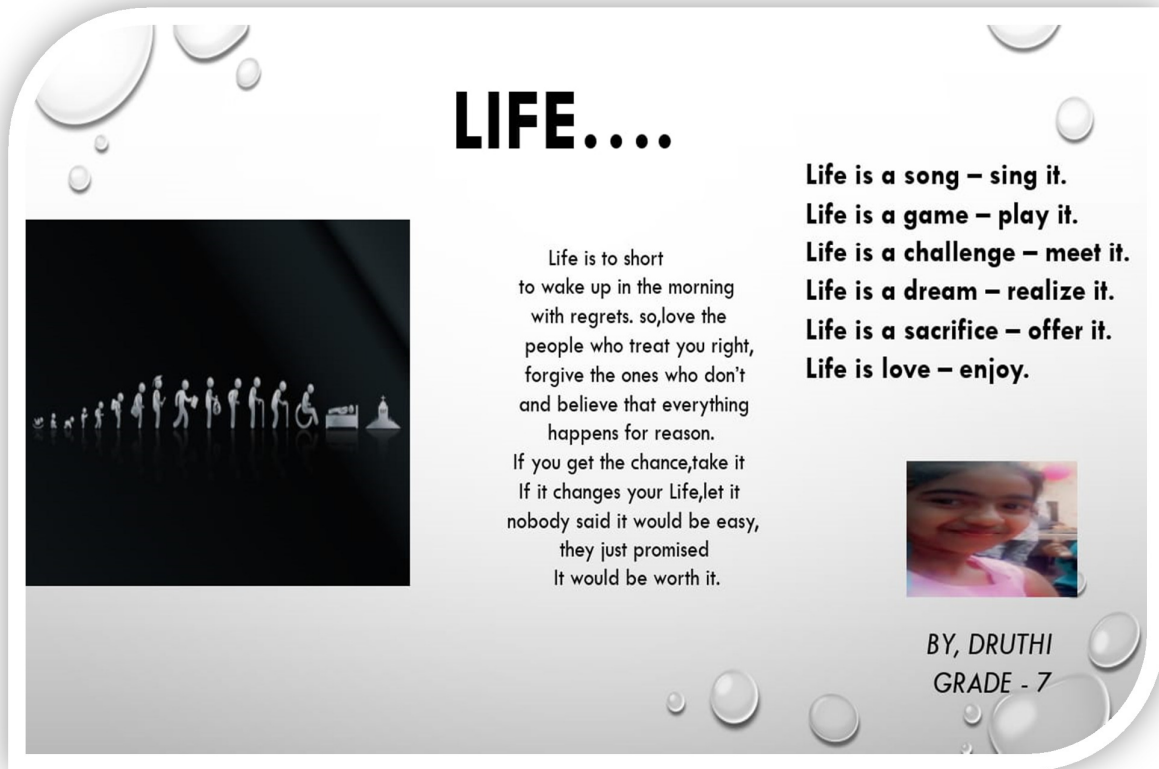

There is a wide, green, beautiful playground in my school where we play together. Students take part in games and sports regularly and many cultural functions we celebrate all national events with great zeal in our school. We also publish a wall magazine and school magazines. This why I love school.

Thank You

The Purpose of Education

In the ever-evolving landscape of education, it becomes imperative for us to delve into the profound meaning and purpose of education. Education is not merely a process; it is an invaluable tool that shapes minds, fosters growth, and builds the foundation for a thriving society. Let's explore the multifaceted dimensions that define the purpose of education and set the stage for a comprehensive understanding.

Shaping Future Leaders

Through a well-rounded curriculum, individuals are not only equipped with knowledge but are also instilled with critical thinking skills, leadership qualities, and a sense of responsibility. The aim is to nurture a generation capable of steering society towards progress and innovation.

Nurturing Lifelong Learning

It is a lifelong endeavour, a commitment to continuous learning. The purpose is not just to prepare individuals for specific careers but to equip them with the skills and adaptability needed to navigate an ever-changing landscape.

Adapting to Technological Advancements

As we hurtle into the digital age, education must keep pace with technological advancements. The purpose is not only to impart technical skills but also to instil a digital mind-set – an ability to leverage technology for innovation, problem-solving, and effective communication.

Conclusion: A Total Approach to Education

In conclusion, the purpose of education transcends the conventional view of a structured learning process. It is a dynamic force that shapes individuals, societies, and the world at large. From fostering leadership qualities to embracing diversity, from intellectual development to lifelong learning, education is the cornerstone of progress.

EDUCATION AND EMPLOYMENT

Indians gave more importance to education from Ancient times. Nalanda University is the oldest university in the world. With the establishment of British rule, Western education became main stream in Indian society.

From the government rules recently like Right to education under article 21A, Free and compulsory education for all, literacy rate of people increasing year by year.

But now a day's quality of education decreasing drastically. Students reading and writing only for the purpose of exam. We are witnessing lack of moral education in our modern education.

More than 50 lakh graduates pass out every year. But India is facing serious unemployment issue. Even though people were getting education but almost all lacks in skills. Number of skilled labours is very low in India. That's why unemployment rate also increasing.

Now a day's government also focusing on moral education and skill development among youngsters. Skill India programme is one of the examples for that.

We should include moral education also in syllabus, this helps to inclusive growth of students. Also, government should give vocational training to students with academics. This helps them to survive if they didn't get job in any companies also.

Education and employment are the two faces of one coin. Both are related each other. Education is the powerful tool, so we have to use that tool properly to develop the country. If young generation is employed in a country means that country obviously performs well in all sectors.

Important tools of the education in our life

Education is the backbone of a country. It is an integral tool that aids the development of human civilization. Education equips the nation with the work force, uplifts awareness among the general public, and promotes national unity. A life without education is value less. Education develops a person's sense of articulation and respect in their vocabulary.

Education is a powerful weapon that aids an individual to face the adversities of life and overcome societal stigmas such as poverty, fear, status to achieve success. Education is the hope of development and success for most third-world countries and the world dominion countries. Mandatory education builds the scope of better growth and development.

Self-Development and Goal Setting

New Year's Resolution

What are a New Year's resolutions? This is a promise that an individual makes to himself. It is a commitment to be honest with the promises you make with yourself like you are going to quit smoking or something else. You are going to spend time reading self-development books and losing weight, quitting any other bad habits. Generally during the end of the year people plan to start something new, creative and constructive habits.

They intend to quit the bad habits and start fresh and healthy habits. People start setting new business goals and personal goals. They set their targets and goal for the coming year and commit themselves that they are going to achieve this goal throughout the next year. If the New Year resolutions you make for yourselves executed properly and you achieve your targets and goals, it helps you stay focused and be more confident individual. A well-executed resolution helps you achieve success in your business and in your personal life. It changes your lifestyle and helps you. What if the resolutions we make did not get executed properly? Trust me, large percentages of resolutions are not well executed! Reason? They make the resolution as they read and see other peoples have one, but they never commit themselves. Sometimes, they make a fancy but false resolution that reads well but has nothing to do in the reality. So, while making your own resolution these years, make sure that you will commit yourself and will execute the resolution, because if you cannot keep your resolutions, there is no means of having one. If you want to have a resolution for your new year 2024, then lest help you get started:

1. Believe in yourself

Let me ask you a question "Do you believe that if you will have New Year's resolutions, you are going to keep them? Your answer must be honest and 'yes' if you want to make New Year's resolutions and want to keep them.

2. What about your last new year's resolutions?

Have you ever had New Year's resolutions last year? If yes, do you think you kept them? If you have not kept them, then do you know why? Note down the reason you failed to keep your resolutions?

3. Set a goal for the year

New Year's resolution should be for entire year not for a week or a month? So set a business goal and a personal goal for entire year and follow an appropriate time management and action plan procedure.

4. Identify the resources

Nothing comes free on this earth and we have to pay for everything. So, identify the resources you have and the resources you require to achieve the goals or the resolutions you have for yourself.

5. Never Forget

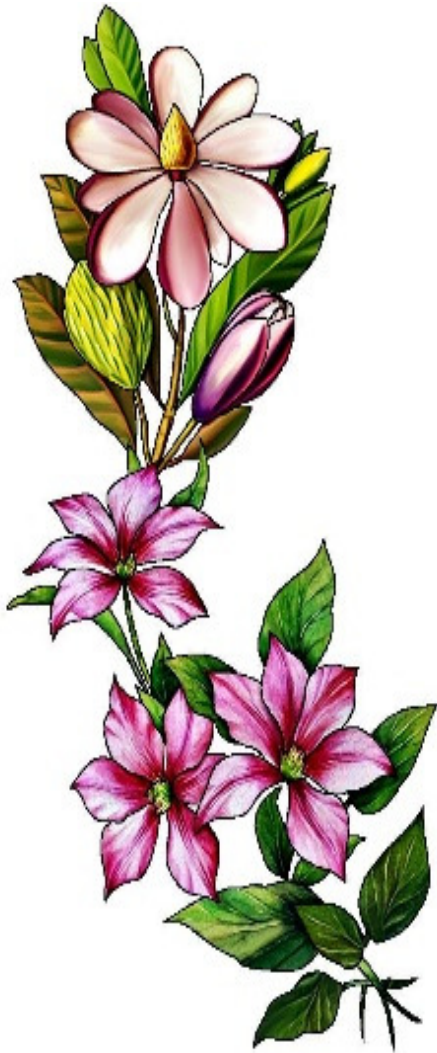

Your new year's Goal should be quite visible to you and you should not forget it in any circumstances. So, keep your resolutions in front of your desk so that it is in front of you and you always remember your resolutions for the New Year.

Most popular New Year's resolutions for you I believe 'health is wealth' and keep myself healthy and I will spend more time with my family and friends and grow and also, I am encouraging you to be bold and take good decision and wait for the success.

THANK YOU

GOD BLESS YOU

विश्वास!

यह आसमान छिन गया तो क्या
नया ढूंढ लेंगे
हम वह परिंदे नहीं जो
उड़ाना छोड़ देंगे ॥

मत पूछ हौसले हमारे
आज कितने प्रबल हैं
एक नई शुरुआत नया
आरंभ तय है ...

माना अभी हम निशब्द हैं।
यह पारावार छूट गया तो क्या
नया सागर ढूंढ लेंगे,
हम वह कशियां नहीं जो
तैरना छोड़ देंगे ॥

कदम चलाते रहेंगे
जब तक श्वास है
परिस्थिति से परे
स्वयं पर हमें विश्वास है ॥
एक रास्ता मिला नहीं तो
क्या नई राहें ढूंढ लेंगे।
हम वह मुसाफिर नहीं
जो चलना छोड़ देंगे ॥

यह मुकाम हासिल नहीं तो क्या
नये ठिकाने ढूँढ लेंगे
हम वह परिदे नहीं जो
उड़ाना छोड़ देंगे ॥

Technology is a boon or bane!

Technology is one of the greatest inventions of humankind. It is so powerful that it shapes our thinking and our way of life within no time. It is ever-evolving. Technology is a tool invented and sharpened by humans to make their life easier. Those who know the correct application of technology, be it any sphere of activity, have managed to make lives easier for themselves and, to some extent, also for others.

Technology has proven to be helpful in various fields, whether it be education or infrastructure. Online classes help children learn things while sitting at their homes comfortably during a curfew or some illness. Educational games help to create competitive skills within them, which allows them in the real world.

Online shopping has made it easier for people to buy products that are not available in their nearby shops or are too expensive. Online shopping brings with it, various sources of a job for the unemployed. Technology also helps us connect with our long-lost friends via multiple apps like Skype, What Sapp, etc.

But other than good aspects, technology has some harmful effects on children as well. From the surveys done every year, it is seen that the increase in usage of devices has caused many health problems in children like hypertension, migraine, etc. The use of these also leads to body damage, both physically and mentally. Technology has separated children from their parents. Due to this, children hardly talk to their parents and are busy chatting with their friends.

Writing is an art, but technology has taken away people's minds from it. Standard English is not used while chatting on the phone. Instead, children are seen using abusive and slang language, which can cause damage to their thinking.

It is seen that technology has its pros as well as cons. It only depends on how people use it in their lives. If used judiciously, it's a boon or else a bane.

My Teacher

Thank you, my teacher, for being
there

At times when skies were gray
Thank you, my teacher, for lending
an ear

When I had things to say
You showered love on me lavishly
When no one seemed to care
You brought me joys untold
To fill my heart with moments of
gold

I would have felt isolated and
lonely

If you had not been there
I lack the words to let you know
How much you mean to me,
But I will profusely thank God for
you
Until the Eternity.

ARTICLE ABOUT ENVIRONMENT

ENVIRONMENT IS SOMETHING THAT WE ARE SURROUNDED WITH AND IT PLAYS AN MAJOR ROLE IN OUR DAY-TO-DAY LIFE. The Earth's environment makes Earth the only planet on the solar system where life and sustainability is possible, also it is the fundamental source of all possible existence on planet earth, also it is important for us to conserve the environment in order to protect wildlife and to preserve the different species and as the citizens or human beings it's our duty to work towards a common goal that is to keep the environment from any more harm.

SELF-ESTEEM

Be kind to yourself

- **Get to know yourself.** For example, what makes you happy and what you value in life? You might find it helpful to write this in a journal.
- **Try to challenge unkind thoughts about yourself.** You might automatically put yourself down. If you find yourself doing this, it can help to ask: "Would I talk to a friend in this way?"
- **Say positive things to yourself.** Some people like to do this in front of a mirror. It can feel strange at first, but you may feel more comfortable the more you do it.
- **Practise saying no.** Being assertive can be difficult if you're not used to it. But agreeing to too many things to please others can be draining. It could help to pause, take a breath and think about how you feel before agreeing to do something you don't want to.
- **Try to avoid comparing yourself to others.** For example, it might help to limit how much time you spend on social media or online communities. What other people often choose to share about their lives isn't always the full picture.
- **Do something nice for yourself.** For example, making your favourite meal or playing a game you enjoy.

Try to recognise positives

- **Celebrate your successes.** No matter how small they may seem, take time to praise yourself. For example, this could be getting outside for a walk or doing some tidying.
- **Accept compliments.** You could save them up to look over when you're feeling low or doubting yourself.
- **Ask people what they like about you,** if you feel comfortable. They may recognise things that you don't think about yourself.
- **Write a list of things you like about yourself.** For example, this could be a skill that you've learnt, or something you do to help other people.

Build a support network

- **Talk to someone you trust.** Having someone listen to you and show they care can help. If you aren't able to open up to someone close to you, you could call a helpline to speak to someone anonymously

Try talking therapy

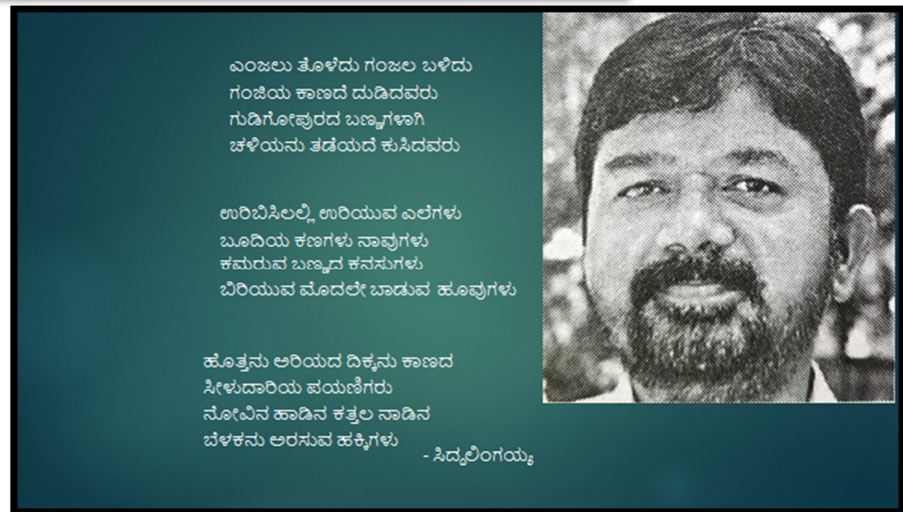

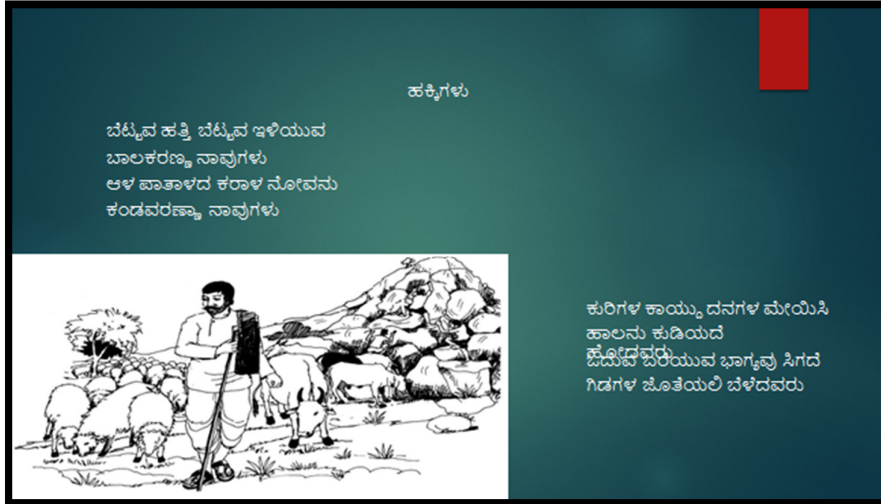

Talking therapies can help with building self-esteem. They can also help you find ways to cope with experiences that affect how you feel about yourself.

Set yourself a challenge

- **Try volunteering.** You might decide to volunteer your time for something you feel passionate about. For more information on volunteering.
- **Set small goals.** This could help things feel more manageable, and give you a greater sense of achievement.
- **Learn something new.** For example, this could be trying a new hobby or creative activity. Or taking time to read a book about a new subject.

Look after yourself

- **Try to get enough sleep.** Getting too little or too much sleep can have a negative impact on how you feel. See our pages on [coping with sleep problems](#) for more information.
- **Think about your diet.** Eating regularly and keeping your blood sugar stable can make a difference to your mood and energy levels. See our pages on [food and mood](#) for more information.
- **Try to do some physical activity.** Being active can help your mental wellbeing. This may include helping to improve your self-esteem. See our pages on [physical activity](#) for more information.
- **Spend time outside.** Being in green space can often help how you feel. See our pages on [nature and mental health](#) for more information.
- **Practise mindfulness and meditation.** For example, you could try [Headspace's meditation course for self-esteem](#).

ABOUT MY SCHOOL

My school Essay: School is a place where we learn and grow. It is a place where we make friends and memories. School is also a place where we learn about the world around us. We learn to read, write, and think critically. We learn to solve problems and to think creatively. School is a place where we can be ourselves and where we can find our place in the world.

For most people, school is the first place where they are introduced to a variety of different subjects. At school, we learn about math, science, English, history, and many other subjects. We also learn about different cultures and different ways of life. All of this helps us to develop our own unique perspective on the world.

We have regular classes and good teachers who attend to all our needs and questions. I feel like being at home in my school. I have never felt homesick and sometimes don't want to go home after school.

ABOUT BEHAVIOUR

Your behaviour and the way of presenting yourself describe your personality. What hob you have, your annual income, the properties you won, etc., do not add any extra value to your personality. IT is your behaviour and good manners that matter the most. Good manners are, therefore, taught in schools and at home so that a child is brought up as a good human being.

When you meet a person with a lot of knowledge and wisdom ut has an arrogate attitude towards everyone, you will not remember the person. On the contrary, if you meet a person who behaves well, you will remember the person for the rest of your life. Irrespective of their status or background.

My School Promise

Each day I'll do my best
And I won't do any less.
My work will always please me
And I won't accept a mess.
I'll colour very carefully.
My printing will be neat.
And I will not be happy
Until my work is all complete.
I'll always do my homework,
with learning as my quest.
I won't forget my promise
to always do my best!

IMPACT OF CINEMA IN LIFE

- **Cinema connects different cultures and reflects the society through fiction or real-based stories. It keeps us aware of things happening around us in the community.**
- **Certain movies create false notions and stereotypes that defame certain sections of the community and people. It generates employment, encourages creativity, and boosts the economy of the country.**

Article on success

Success can be defined in many ways. Every person has different approach towards this term. To many success seems to come suddenly. whereas, for some it takes a lot of hard work and takes time to be achieved.

According to me the definition of success varies from person to person. For e. G. for some it means to get all the materialistic pleasure in life like an opulent car, a big house and good bank balance. And for some it means to have a healthy body, a loving family and unbreakable relations.

In all it is all about being passionate in life. If you are passionate to achieve something you will get it no matter how long it takes. Love your work and you will never find it a burden or you will never run after getting a sabbatical.

As said by Steve Jobs, "sometimes life hits you in the head with a brick. don't lose faith. I am convinced that the only thing that kept me going (after being fired from Apple) was that I lived what I did. you've got to find what you love. And until you find keep looking. Don't settle.

Opportunities come and go. They are not bound to us we are the one have to grab them at right time. Some people nag and they keep going in this phase but they forgot that by doing so they are making themselves lack of time, opportunity, intelligence and wisdom. People need to understand that "failure is the key to success" And yes it is, I truly believe in this concept. We learn a lot of things from our failures. As James Joyce said "Mistakes are the portals of discovery"

DON'T GIVE Up

Once upon a time, there was a boy named Akash who lived in a village. He was upset because his village faced a drought. Everything was drying up, the cattle were starving, and the crops were dying.

He went to the villagers and told them, "Remember, our grandparents told us stories that there is an underground river flowing through our village. We should all start digging to see."

The next morning, everyone started digging with hopes to find water. But after several hours of struggle, everyone was exhausted and gave up hope.

But Akash didn't stop and kept digging until he saw some water. He screamed in happiness, called everyone, and said, "Don't give up just yet."

Other villagers continued digging with him and dug a well to store water. Everyone was happy as they never had to face another drought.

Moral of the story: Hard work pays off in time.
